FALL 2025

54

When you talk about an ultimate favourite, I immediately visualise this cabinet. Not too big or present, but certainly makes an impact. As if everything you put in the cabinet gets framed. It consists of separate objects so it can have any shape or size you want. Got to have it!!

23

So beautiful, so subtle in design and the colours blend beautifully with the surroundings; wood, green, burgundy, ochre, gold. There is no environment in which these ornaments do not feel at home.

24

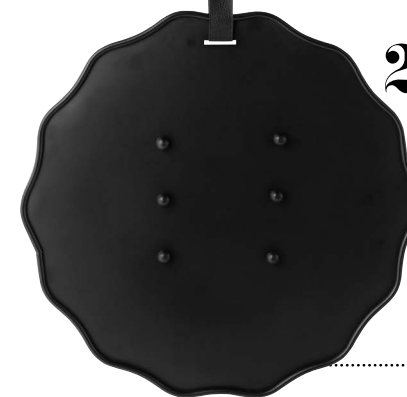

This glass immediately makes me think of Leonardo di Caprio, who hands me a glass. Bring on the champagne.

Everyone knows the vtwonen basic memoboard, meet its new sister. For those who want to leave notes but love round shapes. I can already see it hanging in my kitchen.

The great thing about the introduction of a capsule collections is that every time, you can create a new image in the shop or on the website. And the nice thing is that all collections fit together perfectly, which makes creating room for new collections a thing of the past. Part of a better future, right?!

Love Tanja
