QUALITIES BAGS

VEGAN MATERIALS As Pip cares about the environment as well as the well-being of animals, all bags are vegan (friendly). The bags have a leather look, but are made out of vegan leather. This can be made up of a number of materials or a mix of materials.

PU We have used the known mixture of PVC with a high quality PU with a more soft and supple handfeel, also with a special smooth graining. This PU leather is made by compressing multiple layers of base material (known as polyurethane) and then coated in a water-resistant outer layer. This results in a material that is sturdy and durable, yet very smooth to the touch, with a better wear-resistance.

SUEDE Vegan Suede, also a kind of PU, based on the same materials but with a different finish on the surface. With its rough yet soft surface it's durable and water resistant. This gives it an elegant rough look.

SATIN For the more Satin look & feel all materials are a mixture of polyester and PVC, with PU for the finishing details. With its smooth surface also easy to clean.

VELVET The polyester velvet fabric consists of polyester fibres. An artificial fabric, but very soft and pleasant to the touch. It is durable and flexible, therefore perfect for cosmetic bags or tote bags.

CANVAS This Polyester Canvas is a very strong and durable fabric, so your bag will last a long time. It is a plain weave fabric with a nice consistent texture for a great handfeel. Due to the colour fastness, the canvas will not fade easily. The water resistant coating on the backside of the fabric will keep your belongings dry in light rain.

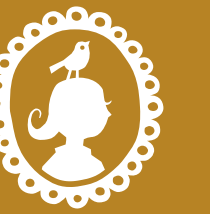

SUSTAINABILITY Pip Studio does not own any factories, we work together with our carefully selected partners. We believe that the manufacturing of our products should be done in a responsible way. We aim to create collections with well-thought-out solutions that bring a sparkle to everyday life. Our partners' philosophy is to build a trustworthy and long-term relationship with our suppliers in order to ensure continuity of the and delivery of our collections.

WASH CARE We encourage a daily use of your beautiful Pip Studio bag, but please take good care of your new bags. No machine wash, no bleach or tumble dry and do not iron the items. Wipe clean only with a damp cloth and don't use any abrasive detergents. Most Fashion & Travel Bags are water repellent on the outside. And for most cosmetic bags both outside and inside are water repellent so it's easy to clean.
