

Mutebox Pro

The Only Danish-Produced Pod With Class-A Sound Insulation.
Tested by the Danish Technological Institute.

Premium Noise Reduction

If you are looking for premium noise reduction, Mutebox Pro is the model to choose. The pod has been developed with a special focus on calm and acoustics. It features a specially designed acoustic glass door and has been tested and certified by the Danish Technological Institute according to the ISO 23351-1:2020 standard.

With Class A noise reduction, Mutebox Pro ranks among the best sound-insulated meeting pods on the market and is also the only Danish-produced pod with this certification.

Mutebox Pro comes with acoustic carpeting and an integrated motion sensor and is available as Mutebox Pro or Mutebox Pro Comfort. Mutebox Pro is the simple solution with a high table, compatible with our barstool. Mutebox Pro Comfort builds on the same design but adds extra comfort with the specially designed bench. Both pods offer the same high acoustic performance.

Whichever model you choose, you get a pod where sound and functionality go hand in hand. The design can be customized with various material and configuration options.

Designed, developed, and produced in Denmark.

Mutebox Pro

Mutebox Pro comes with a high table.
With our barstool you get full seating comfort.

Mutebox Pro Comfort

The Mutebox Pro Comfort comes with a custom-designed bench
upholstered in Leap® or Gabriel Fabrics.
