

Acoustic Table

An Innovative Design
That Reduces Noise.

We Bring Peace to the Table

Create a quiet and focused workspace with our acoustic desk. Its innovative design reduces noise and improves the room's acoustic environment.

The desk is made from surplus wood from our box production, supporting a vision of a greener, more balanced world where design, craftsmanship, and responsibility go hand in hand.

The tabletop is available in a variety of colors, and the underside features sound-absorbing materials such as cork.

The base is finished with removable acoustic textiles or handcrafted slats, ensuring effective noise reduction.

Designed, developed, and produced in Denmark.
