## 02. Permitted Uses

This Basic End User License Agreement (“EULA”) grants the use of the font family (“Font Software” or “Fonts”) identified above. This licence is for the use of the purchased font family within a single organisation. For the purposes of clarity, the Font Software may only be used for the licensed project and only by the licensed user. Use in other project(s) and/or by a second organization requires the purchase of another licence.

The Fonts may not be stored or used in any manner that makes them accessible to the public or non-licensed third parties. Under no circumstances can the licensed Font be shared with a contractor, freelance employee, or affiliates. If more than the licensed number of users will be using the Font Software concurrently, you must purchase a licence for each additional user.

If you are a design consultancy, advertising agency, or purchasing this Licence for use by or on behalf of such a company, the ultimate end user should also purchase a license proper for the intended uses. Specifically, if your client will need and/or use copies of the Font Software, your client must also purchase a license for their uses. You may not make copies greater than those authorized under this License for temporary use by freelancers, temporary employees or independent contractors.

This licence limits the use of the Font Software. If you wish to use the Font on goods for sale or embed the Font Software as part of an ebook or other electronic device, you must purchase an additional licence for such uses. You may contact lo-ol to licence for special uses.
