ABOUT ME

Frontend Developer with a passion for building web applications using modern technologies such as TypeScript and React that loves creativity and problem-solving involved in web development, constantly striving to improve skills and learn new things.

EDUCATION

IT TECHNICIAN

Elektroniczne Zakłady Naukowe (Technical high school No. 10 in Wrocław)
September 2019 - May 2023

EXPERIENCE

AMUSYS PRODUCTION

Frontend Developer | June 2023 - Now

Amusys Production is a part of Novomatic Group that specializes in producing, and operating gaming technologies, including slot machines and electronic gaming solutions, for the international casino and gambling industry.

My tasks in the company included:

- Developing and maintaining user interfaces using React to ensure a seamless and responsive user experience.
- Collaborating with backend developers and designers to integrate APIs and create visually appealing, functional web applications.

REALM GAMING

Frontend Developer | December 2020 - November 2022

Realm Gaming is a gaming community project that creates FiveM and Rust game servers and hosts CS:GO and LoL esports tournaments.

My tasks in the project included:

- Development and maintenance of the realmgaming.eu website
- Designing and programming user interfaces for FiveM servers

PKP INTERCITY

Help Desk Specialist - Internship | June 2021 - July 2021

PKP Intercity is a Polish railway carrier belonging to the PKP group. It supports long-distance rail passenger transport TLK, IC, EIC, EIP.

My tasks in the company included:

- Modernization and reorganization of network infrastructure
- Diagnostics and repair of computer hardware
- Providing technical support to employees
