

## THC

Known for her ecstatic, high-energy sets, THC is the perfect mix of intensity and ease—a playful contrast to the laid-back vibe her initials suggest. Born in Bogotá and based in Berlin, Tania has honed her wide-ranging electronic music knowledge into a signature sound. She spins house and techno with warmth, euphoria, and a rolling groove, creating sets that feel both massive and intimate. From driving rave bangers and vocal-led deep cuts to ethereal drum & bass and downtempo explorations, she crafts moods with razor-sharp instinct.

Drawing inspiration from queer countercultural movements that shaped the classic sounds she loves, THC channels these influences into a unique sense of momentum. One of her key outlets is La Noche, a party she co-founded in 2023 with Byron Yeates and her sibling DHC. Together, they've built an intentional event series that gives back to Berlin's community while offering something fresh and exciting in the city's vibrant scene.

Whether performing solo or as S-candalo, the iconic back-to-back project with DHC, Tania has lit up dancefloors around the world, including Panorama Bar, Whole Festival, Dekmantel Festival, Primavera Sound in Barcelona, and São Paulo's Mamba Negra party.
