Beyond Sacred is an interview-based theatre production by Ping Chong + Company and LaGuardia Performing Arts Center exploring the diverse experiences of Muslim New Yorkers. The five participants in Beyond Sacred share the common experience of coming of age in a post-9/11 NYC, at a time of increasing Islamophobia. Beyond Sacred was developed through a community-engaged process wherein Ping Chong + Company extensively interviewed locals of Muslim faith. These conversations become the basis of a script, performed by the interviewees, that weaves together personal, historical, and political narratives. The goal of Beyond Sacred is to use theater and personal testimony to foster greater understanding among Muslim and non-Muslim communities in New York.
