

Teacher-Led Pack

Teacher Guide

This 6-week revision programme has been designed using our free GCSE mathematics Foundation Tier resources in a clear and structured way to help engage and motivate your students ahead of their next exams.

There is a student-led pack that includes a topic revision checklist to help guide your students through their independent revision in a meaningful way providing manageable tasks that sit alongside the teacher-led schedule provided for teachers. You will find exam practice materials throughout, but also some 5-a-day warm up tasks and key topic questions to help build confidence. This programme can be amended to suit the needs of your students particularly when using the First-Middle-Final Third papers, where you will need to prescribe which section each student is to work on to make sure they get the most out of that resource. Additionally, we have included some extra shadow papers for use over half term and in the days between each paper. There are also plenty of other **FREE** resources on our All About Maths website that you may want to use in addition.

To help support you with your communication with students and their parents/carers, we have also provided weekly email templates to send out reminding them of what their tasks are for the week ahead, to keep them on track.

Contents

Week	Resource	Time spent
Week One	5-a-day warm up	10 mins
	Grade Paper 1 to 2 (Test 2, non-calc)	45-60 mins
	First-Middle-Final Third November 24 Paper 1	30-45 mins
