Passionate about Software Development, Finance, Start-ups and Entrepreneurship | UI & UX Design | Digital Marketing & SEO | Financial Trading

Mogadishu, Banaadir, Somalia

## Experience

### Bulaal Technologies

Co-Founder, Board Member | Admin and Finance

July 2023 - September 2024 (1 year 3 months)

Mogadishu, Banaadir, Somalia

I co-founded and have been a board member of the company. I also held the admin and finance position for the company where i managed a software development team, a finance team and a marketing team. I also worked as a consultant and Financial /IT audit for the company. The work included analyzing and sometimes restructuring and auditing our clients financials and accounting and then consult them about which kind of servers and data management systems they use by identifying their business model and cultural needs.

### Daaus Advertising Agency

Web Designer and Developer, Sales

2021 - June 2023 (2 years)

I have worked as a sales, designer and web developer for many clients in Daaus. My position responsibilities demanded a lot of skill integration between sales, design and web development which i have successfully did. Skills like identifying the clients need and then selling them on the solution that fits them and then delivering the solution by designing or sometimes just building a beautiful website for them.

### PANO Mogadishu

Signage Printing and Installation

July 2021 - September 2022 (1 year 3 months)

In my time at this position, i kicked off my first venture to the world of signage and material printing. I worked with a signage installation team as a part of the sticker and marketing material installing. The work was long-hours, long-drive and sometimes very exhausting but it was very fun and handy working with a technical team. I then worked as an Designer and Signage Printer which

included designing the graphics and the art and then printing them through different signage printing machines.
