Okay I have to tell you about this. I switched to Ezee Fiber a while back and it just... works? I was so used to throttling and random outages I'd forgotten what great internet feels like.

Ezee Fiber is hands down the best internet I've had. I'm getting [X] Gig, whole-home Wi-Fi, and — this is the part I love — lifetime pricing. The price doesn't go up. Ever.

Okay so I never thought I'd get excited about internet. But here we are.

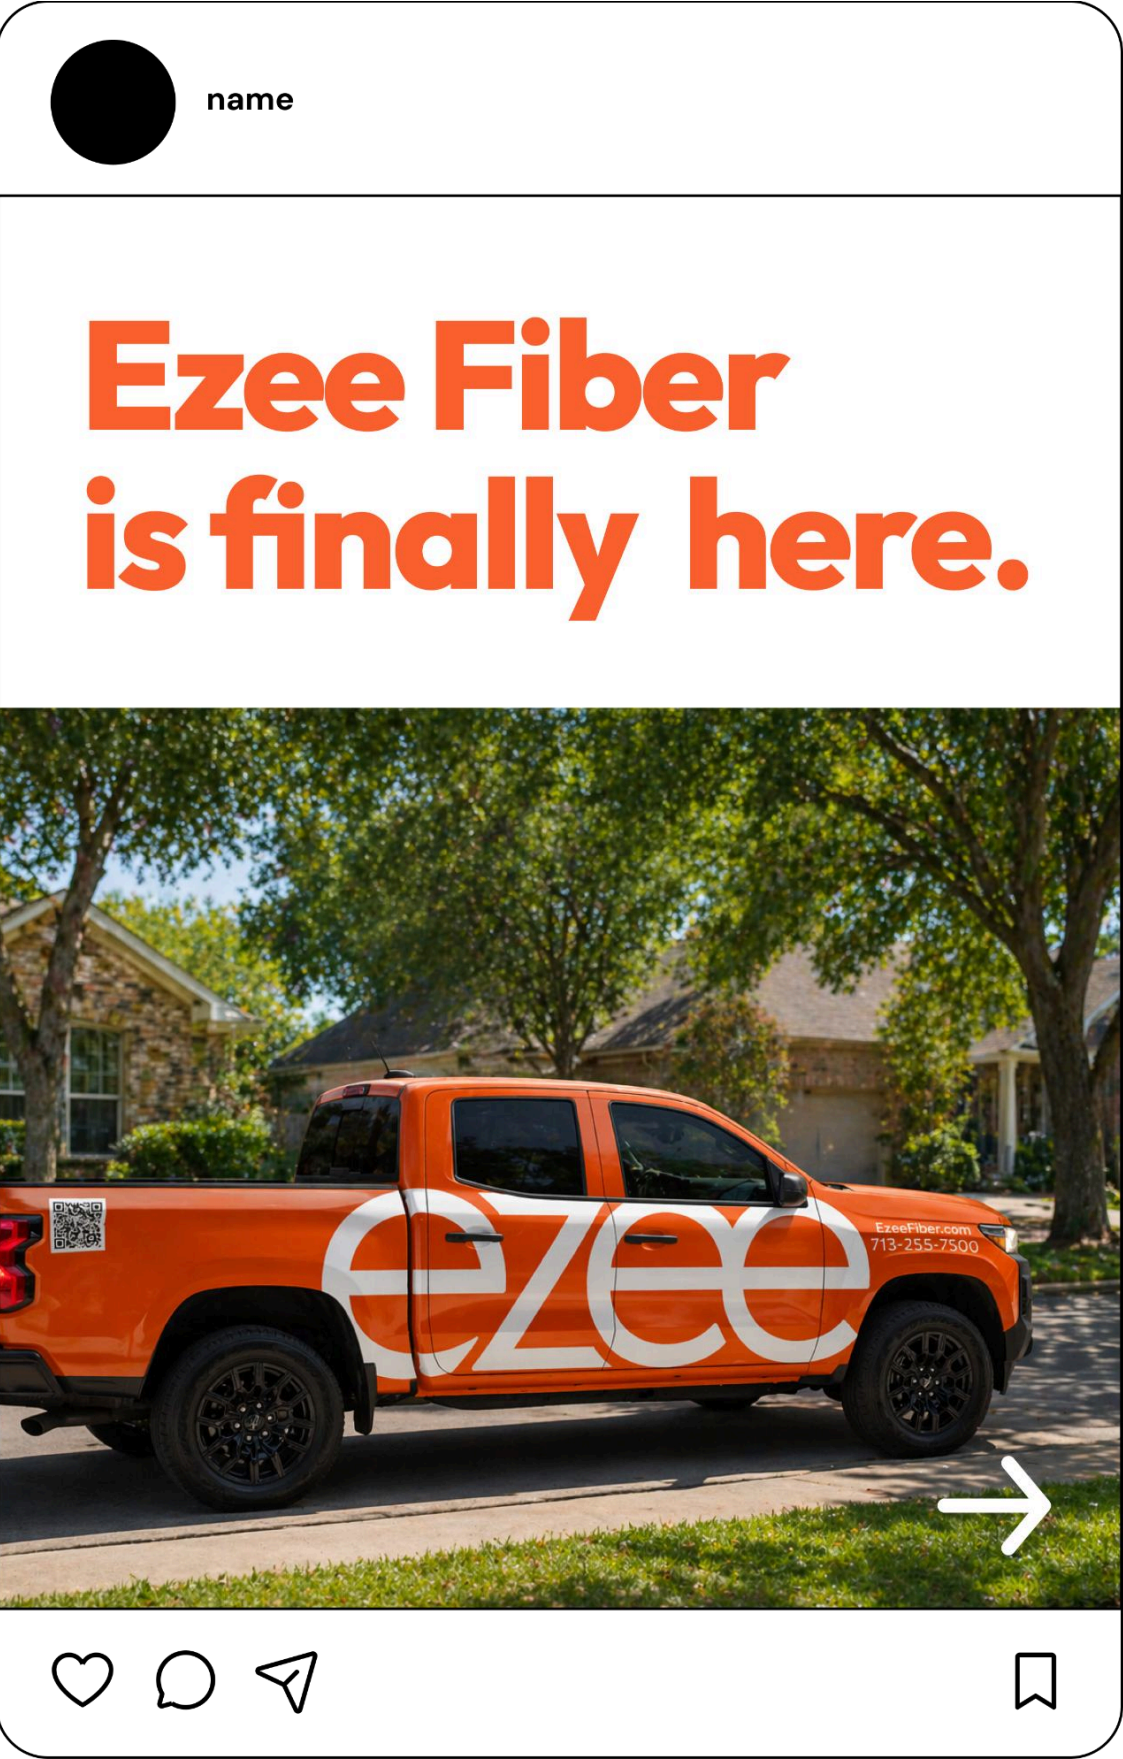

Ezee Fiber just came to my area and holy moly. Like — it just works? No buffering, no randomly dropping out during the worst possible moment, no calling customer service just to be told to restart my router again (I tried that, James, thanks).

Speeds up to 8 Gig. Whole-home Wi-Fi that actually works in every room. And the price never goes up — what you sign up for is what you pay. Forever.

Let me say that again: YOUR PRICE STAYS THE SAME FOREVER. Why hasn't everyone switched already? If you sign up through my link you get \$100 off your bill. No contracts, no weird fine print. Just better internet. Go. GO!
