

Gather Modular Sofa

Design Andreas Engesvik

A generous and versatile sofa system with the same confident attitude as the rest of the Gather series. The slender steel legs give the spacious modules a light and almost hovering expression, while the characteristic seam defines the silhouette and reinforces the sense of presence.

Designed to be built, combined, and reconfigured, Gather Modular adapts naturally to different settings – from relaxed lounge areas to dynamic workplaces and public

environments. With a wide selection of textiles and several colours for the steel legs, the sofa can be tailored to create a personal expression. A flexible centrepiece that completes the Gather series and invites both small gatherings and large social settings.

Edsbyn Factory

The secret of our success is the ability to change and adapt. What began in 1899 as a small carpentry, grew in to be one of the largest furniture factories in the Nordics. Between 1934 and 1984, we produced wooden skis for the Ministry of Defence, Olympic gold medal winners, and families. From the waste material, we manufactured pin-back chairs, which became well-known and cherished in Swedish homes.

As one of Sweden's oldest furniture companies, with roots in Edsbyn, we can proudly say that we have played a part in making the label Swedish Design synonymous with good form and function.
