Feather Lounge/Coffee & Café Table

Design Jens Fager

Feather Lounge, Coffee, and Café Table is the piece that ties the Feather series together. With its clean and soft expression, it blends seamlessly into many different environments – from workplaces to homes. The table comes in several sizes, heights, and shapes, making it a flexible complement that adds both function and harmony.

Advantageously combine the tables with one another, allowing for flexible layouts that adapt to both large and small areas. The variety of designs encourages creativity

when furnishing, as the tables can be arranged in clusters, rows, or individual setups depending on the desired atmosphere. They are particularly suitable for cafés, restaurants, school environments, and hotel lobbies, where durability and versatility are important.

Edsbyn Factory

The secret of our success is the ability to change and adapt. What began in 1899 as a small carpentry, grew in to be one of the largest furniture factories in the Nordics. Between 1934 and 1984, we produced wooden skis for the Ministry of Defence, Olympic gold medal winners, and families. From the waste material, we manufactured pin-back chairs, which became well-known and cherished in Swedish homes.

As one of Sweden's oldest furniture companies, with roots in Edsbyn, we can proudly say that we have played a part in making the label Swedish Design synonymous with good form and function.
