

Adaptable,
balanced and
designed to last

Cone Table

Design Jens Fager

An understated design that blends seamlessly with all types of chairs and in a wide range of environments. The conically shaped leg creates a stable connection to the bottom board, giving the table both strength and balance while also adding a distinctive character that sets it apart.

Jens Fager designed this pillar stand to last over time. This thoughtful combination of simplicity

and stability makes the Cone Table a versatile choice for cafés, restaurants, lounges, and workspaces.

“The goal with this family of tables is to offer the market a tool that works in every type of setting” /Jens Fager

Edsbyn Factory

The secret of our success is the ability to change and adapt. What began in 1899 as a small carpentry, grew in to be one of the largest furniture factories in the Nordics. Between 1934 and 1984, we produced wooden skis for the Ministry of Defence, Olympic gold medal winners, and families. From the waste material, we manufactured pin-back chairs, which became well-known and cherished in Swedish homes.

As one of Sweden's oldest furniture companies, with roots in Edsbyn, we can proudly say that we have played a part in making the label Swedish Design synonymous with good form and function.
