4-leg with armrest

## Eline Chair

Design Claesson Koivisto Rune

With a seemingly impossible slim silhouette and lightness, the task chair Eline gives a comfortable seating for an active and long use. Despite the fact that materials and details in the construction have been reduced to an absolute minimum, and all other parameters taken to its limits, a pleasant flex in the form-pressed seating shell has been achieved. With different leg frames and choice of colours, Eline constitutes a harmonic balancing act between technique and form.

“We wanted to make the thinnest and lightest task chair possible, free from all the levers and controls, but without having to compromise with the comfort. In order to make the seat flexible without breaking, we constructed a cradle. It works as a buffer against the leg frame, which fixates the seating shell just enough to give a pleasant flex in both the back and seat. Together with Edsbyn we feel that we really have taken this concept to the limit of what is technically possible”.

Swivel with/without armrest

Cantilever with/without armrest

4-leg with/without armrest

	Stackable	Configurable	Assembly	Seat	Base	Armrest	Foot	Certificate
Swivel with/without armrest	No	Fabric & finish Configure at edsbyn.com	Pre-assembled	Upholstered Pressed plywood with foam	Powder coated steel. Chrome (not on chairs with uncovered armrests)	Powder coated steel. Chrome (only with leather cover)	Black plastic	Möbelfakta

Climate-Smart

All materials and surface treatments are approved for public environments with high wear and tear, and will last for many years without the need for maintenance.

Certified according to Möbelfakta

Technical quality standards for sustainability, stability, safety and for surface resistance. Environmental standards for materials and products.

ISO Certified Production

Edsbyverken is certified according to quality and environmental management standards ISO 9001 and ISO 14001.

Color & Trim

Customized furniture with extensive configuration possibilities is our specialty. Edsbyn's selected palette, Color & Trim, showcases a small selection of the color schemes offered for standard orders.

All materials are carefully selected with environmental sustainability as our top priority. All finishes offered in Color & Trim are sustainable and suitable for environments with heavy daily wear and tear.

Edsbyn Factory

The secret of our success is the ability to change and adapt. What began in 1899 as a small carpentry, grew in to be one of the largest furniture factories in the Nordics. Between 1934 and 1984, we produced wooden skis for the Ministry of Defence, Olympic gold medal winners, and families. From the waste material, we manufactured pin-back chairs, which became well-known and cherished in Swedish homes.

As one of Sweden's oldest furniture companies, with roots in Edsbyn, we can proudly say that we have played a part in making the label Swedish Design synonymous with good form and function.
