## Feather Work Table

Design Jens Fager

Feather Work Table is a height-adjustable desk with the same clean lines and confident expression as the rest of the Feather series. A Swedish-made table that combines function with timeless elegance.

Designed by Jens Fager, the series of tables and chairs easily finds its place in a wide range of settings – from offices and conference rooms to restaurants, schools, and homes.

With the addition of Feather Work Table, the collection grows further, opening up even more ways to use Feather – always with the same thoughtful design and lasting quality.

Like the rest of the Feather series, the work table can be customized in color, shape, and material to seamlessly integrate into a harmonious interior with a personal touch.

Edsbyn Factory

The secret of our success is the ability to change and adapt. What began in 1899 as a small carpentry, grew in to be one of the largest furniture factories in the Nordics. Between 1934 and 1984, we produced wooden skis for the Ministry of Defence, Olympic gold medal winners, and families. From the waste material, we manufactured pin-back chairs, which became well-known and cherished in Swedish homes.

As one of Sweden's oldest furniture companies, with roots in Edsbyn, we can proudly say that we have played a part in making the label Swedish Design synonymous with good form and function.
