

Cup Stool

Design Luca Nichetto

This nomadic furniture, is built with a hollow cylinder in recycled cardboard and leftover material from Edsbyn's production. With a tactile metal handle in Swedish steel on the side, and an upholstered seat that can be combined in various colors, Cup is sure to add flavour to the room.

"I imagined people sitting, chatting during a break, realising these are 'fika' moments, a cherished Swedish

routine linked to coffee. To honour this, I scaled up the coffee cup, designing a metal handle resembling an ear attached to a cylinder with an upholstered seat. To make it even more playful, the color choice could reflect how you take your coffee. Hopefully it offers users not just a pleasant break but also a smile."
/Luca Nichetto

Edsbyn Factory

The secret of our success is the ability to change and adapt. What began in 1899 as a small carpentry, grew in to be one of the largest furniture factories in the Nordics. Between 1934 and 1984, we produced wooden skis for the Ministry of Defence, Olympic gold medal winners, and families. From the waste material, we manufactured pin-back chairs, which became well-known and cherished in Swedish homes.

As one of Sweden's oldest furniture companies, with roots in Edsbyn, we can proudly say that we have played a part in making the label Swedish Design synonymous with good form and function.
