## Neat Table

Design Thomas Eriksson

When floor space is limited, every inch counts. Neat Table is designed with just the right proportions and smart details to create an efficient workspace wherever it's needed – at the office, in a hotel or at home.

With its light expression and delicate profile, Neat Table brings a sense of clarity to any room. The wooden tabletop and metal frame can be combined in different colours,

while built-in power outlets and an elegant front apron add both function and character.

The design is also shaped by resourcefulness. Each component is carefully considered – never heavier, thicker or more advanced than necessary – resulting in a sustainable table that is both refined and responsible.

### Climate-Smart

All materials and surface treatments are approved for public environments with high wear and tear, and will last for many years without the need for maintenance.

### Certified according to Möbelfakta

Technical quality standards for sustainability, stability, safety and for surface resistance. Environmental standards for materials and products.

### ISO Certified Production

Edsbyverken is certified according to quality and environmental management standards ISO 9001 and ISO 14001.

### Color & Trim

Customized furniture with extensive configuration possibilities is our specialty. Edsbyn's selected palette, Color & Trim, showcases a small selection of the color schemes offered for standard orders.

All materials are carefully selected with environmental sustainability as our top priority. All finishes offered in Color & Trim are sustainable and suitable for environments with heavy daily wear and tear.

Explore the complete selection of materials and colors available for you to choose from at [my.edsbyn.com](https://my.edsbyn.com)

### Edsbyn Factory

The secret of our success is the ability to change and adapt. What began in 1899 as a small carpentry, grew in to be one of the largest furniture factories in the Nordics. Between 1934 and 1984, we produced wooden skis for the Ministry of Defence, Olympic gold medal winners, and families. From the waste material, we manufactured pin-back chairs, which became well-known and cherished in Swedish homes.

As one of Sweden's oldest furniture companies, with roots in Edsbyn, we can proudly say that we have played a part in making the label Swedish Design synonymous with good form and function.
