## Piece Light Table

Design TEA

Piece Light Table is a series of rectangular tables with a light and refined expression, designed to create space for both creativity and relaxation. The slim metal frame gives the table a modern character that makes it just as natural in the meeting room as in the dining area or project space. Always with the same inviting feel – perfect for spontaneous meetings, conversations, and collaborations.

The tables offer smart options for neat and discreet cable management,

making it easy to charge different devices. With an optional cable lid, technology always stays tidy and in place.

The tabletop is seamless without slots and is available with several surface finishes, offering freedom in both durability and expression. Piece Light can be further customised by choosing stand in different colours and two different heights.

Edsbyn Factory

The secret of our success is the ability to change and adapt. What began in 1899 as a small carpentry, grew in to be one of the largest furniture factories in the Nordics. Between 1934 and 1984, we produced wooden skis for the Ministry of Defence, Olympic gold medal winners, and families. From the waste material, we manufactured pin-back chairs, which became well-known and cherished in Swedish homes.

As one of Sweden's oldest furniture companies, with roots in Edsbyn, we can proudly say that we have played a part in making the label Swedish Design synonymous with good form and function.
