

Neat Storage

Design TEA

Neat Storage is part of the streamlined and graphic Neat series, designed for dynamic spaces. Its airy expression meets functional design, making it a natural choice for environments where function, aesthetics, and flexibility go hand in hand.

With a wide range of modules and materials, the storage can be built and combined in countless variations. This makes it easy to add a personal

touch while creating a harmonious space within the space. Neat Storage is just as appealing on the back as on the front, allowing it to be placed against a wall or used as practical, space-defining sections in the middle of a room.

Edsbyn Factory

The secret of our success is the ability to change and adapt. What began in 1899 as a small carpentry, grew in to be one of the largest furniture factories in the Nordics. Between 1934 and 1984, we produced wooden skis for the Ministry of Defence, Olympic gold medal winners, and families. From the waste material, we manufactured pin-back chairs, which became well-known and cherished in Swedish homes.

As one of Sweden's oldest furniture companies, with roots in Edsbyn, we can proudly say that we have played a part in making the label Swedish Design synonymous with good form and function.
