

Safely access any fixtures in seconds for fast and affordable inspection, maintenance and upgrades.

Solutions for all applications

					
LED Lighting	CCTV & Surveillance	Networking	Sirens & Alarms	Instruments & More	Autonomous Vehicles

- ✓ **Safety** Eliminate the risk of working at heights. The light fixture lowers to a safe, ergonomic service position - all from walkway level.
- ✓ **Simplicity** Easy to install and operate. Upgrade to LED without using a ladder.
- ✓ **Savings** Maximised profit through substantially reduced operating and maintenance costs.
- ✓ **Flexibility** Incorporate into new builds or convert existing rigid poles to lowering poles.

				
Cast steel joint with minimal moving parts	Suitable for hazardous locations & harsh environments	Multiple product configurations to suit a range of requirements	Superior 45° lowering pole technology	The only solution for converting existing rigid poles to lowering poles

Swivelpole™ R1 - Range

Maxis™ joint

Greenfields: Choose from our range of complete pole solutions to suit many applications.

Brownfields: Convert existing poles by installing the Maxis™ joint with the help of the Pole Conversion Tool Kit.
