

Introduction to Environmental Sanitation Pre-workshop Questionnaire

The following is a short questionnaire that we ask our participants to complete, so that we can better prepare for the Introduction to Environmental Sanitation workshop.

Name:

Organization (if applicable):

Address (City, Province/State, Country):

Email:

1. What do you want to know or be able to do after this workshop?

2. Please fill out the following table using the following number scales.

My current level of knowledge and skill:

1 – I have very little knowledge of this topic

2 – I have some knowledge of this topic

3 – I have good knowledge of this topic

Priorities for what I want to learn:

1 – This topic is not important for me to learn about during this workshop

2 – It would be good to learn something about this topic during the workshop

3 – This topic is very important for me to learn about during the workshop

Content	My Current Level of Knowledge and Skill	Priorities for What I Want to Learn
Local and global sanitation issues		
Pathogens and disease transmission		
Human excreta management		
Latrine design and construction		
Animal excreta management		
Domestic wastewater management		
Solid waste management		
Vector control of mosquitos and rodents		
Handwashing		
Menstrual hygiene management		
Behaviour change		
Sanitation promotion		
Sanitary inspections		
Project planning and implementation		

3. If you had to choose only three topics to be covered, what would they be?

4. Your experience will be an important resource at the workshop. In which areas do you have experience or skill (e.g., technical expertise, development experience, regional/cultural)?

Introduction to Environmental Sanitation Pre-workshop Questionnaire

5. In which locations have you worked, or where are you planning to do a project?
6. What is your job, role or profession?
7. Do you have any other questions or comments about the workshop?
