CAWST, the Centre for Affordable Water and Sanitation Technology, is a nonprofit organization that provides training and consulting to organizations working directly with populations in developing countries who lack access to clean water and basic sanitation.

One of CAWST's core strategies is to make knowledge about water common knowledge. This is achieved, in part, by developing and freely distributing education materials with the intent of increasing the availability of information to those who need it most.

What is Environmental Sanitation?

Learning Outcomes

1. Identify the different aspects of environmental sanitation.
2. Explain the difference between sanitation and environmental sanitation.

HOW WATER IS CONTAMINATED

HOW WATER IS CONTAMINATED

HOW WATER IS CONTAMINATED

HOW WATER IS CONTAMINATED

HOW WATER IS CONTAMINATED

HOW WATER IS CONTAMINATED

What is Environmental Sanitation?

- Human and animal excreta (feces and urine) management
- Household wastewater management
- Solid waste management
- Vector control
- Stormwater drainage

What is Sanitation?

- Human excreta (feces and urine) management

Review

- Discuss with a partner whether or not you agree with the definitions of sanitation and environmental sanitation.
