

MISURA

Écran In & Out Wall Lamp

Écran In & Out is a versatile wall lamp that can be used, as the name indicates, in both indoor and outdoor settings. The lamp is made in watertight plastic, resistant to changes of weather or temperature. The diffuser in opaline plastic, concealing the light source, creates a magical effect of light spreading in space. Breaking with the usual typological conventions, the French designer has created a forcefully expressive product whose polished, suave presence guarantees visual appeal even when the lamp is off.

D67PLN1

dimmable

weight 0,60 Kg

Product use: indoor/outdoor

Light source	D67PLN1	LED module 8W* 3000K CRI 80
