

Stochastic Suspension Lamp

Composed of glass spheres at different heights, Stochastic takes on infinite combinations in a sort of controlled freedom: each sphere is connected to small steel rods of different lengths that can be attached to the structure according to your own creative impulses. The light source – a double high efficiency LED module – is enclosed in the spheres, generating warm indirect light aimed upward and downward.

D87CW1 + D87048 = 1.680 lm
D87CC1 + D87048 = 1.726 lm

suspension
48 elements
dimnable phase cut
with wall control

Spheres: Ø 8,7 cm
weight 2,9 Kg

Ceiling rose:
Ø 18 cm, h 4,5 cm
Product use: indoor

Compatible wall mounted dimmers
