

Lita Table Lamp

Lita by David Dolcini is an extremely versatile family of decorative lamps, the result of a delicate design process that mixes imagery, signs, geometric textures and natural materials. The result is a collection with its own elegant simplicity, including table, floor, suspension and wall/ceiling solutions. The diffuser in opaline blown glass – whose surface is scanned by the repetition of slight vertical cusps that vanish at the extremities – is combined with a wooden structure, making Lita a product with a forceful material character. A timeless and evocative object that combines the crafts tradition with technical research, seductive in its way of matching visual and tactile sensations.
