**EDUCATION:**

+ ARCHITECTURAL TECHNOLOGIST  
Northern Alberta Institute Of Technology  
Edmonton, Alberta / 2012

### HEY, I'M BRENDAN.

I love all things design, and I willfully welcome any design challenge. No matter the scale, scope or budget, I believe a project should be thoughtfully looked at from every angle. As the design & creative director, I encourage our clients and project teams to think outside the box and am always looking to learn from our industry partners. I believe in longevity in our projects. I am involved from parti sketch to site instruction, ensuring the original vision is realized, and lessons learned are implemented in future work.

I joined the holo-blok team because I believe that flexibility fosters creativity. The best ideas don't always show up between 9-5, and I would rather put more time to the design process than timesheets.

When I'm out of "the office," you can probably find me exploring a mountain nearby, either camping, climbing, biking, or snowboarding. I enjoy all of the wonderful local food & drink Edmonton has to offer, and take advantage of our river valley as much as possible.

# WHAT I'VE DONE (PROJECT EXPERIENCE)

PROJECT	ROLE	TYPE	LOCATION
THE EDDIE	Design Lead, Visualization, Documentation/Drawings	Mixed-Use New Build	Cumberland, BC
THE WEDGE	Design Lead, Visualization, Documentation/Drawings	Mixed-Use New Build	Edmonton, AB
