FYREWASH® F1

Maximum efficiency for heavy duty cleaning

This high purity hydrocarbon solvent and surfactant chemical is our original FYREWASH® and the best in our compressor cleaning range for oil leaks and industrial areas.

When should I use FYREWASH® F1?

Choose FYREWASH® F1 when you want the best performance possible from a compressor cleaning chemical. Safe and effective for both on-line and off-line use, it is designed to combat a range of foulants to restore and maintain turbine efficiency.

How do I use it?

FYREWASH® F1 is diluted with four parts demineralised water and can be injected directly into the compressor during normal turbine operation (on-line use). It can also be used for off-line cleans, supporting your maintenance schedule.

Does it meet OEMs?

Yes. FYREWASH® F1 meets most major original equipment manufacturer (OEM) and environmental standards around the world.

Is it safe?

Yes. FYREWASH® F1 has a 100% safety record in thousands of turbines and millions of operating hours. It cleans effectively and leaves no chemical residue.

Properties

Appearance: Colourless.

Shelf Life: 3 years.

Typical Properties: Density 0.847g/ml@ 20°C, Flash point 88°C, Fluid form, PH 7.4 (20% in water).

Dilution: FYREWASH® F1 concentrate with four (4) parts of water into a stable solution.

Application: FYREWASH® F1 can be used with any on-line or off-line injection system.

Water Rinse: When on-line washing, as with all our chemicals, it is best carry out a rinse flush with demineralised water. For off-line washing, rinse until the run-off is clear.

Antifreeze: If the temperature falls below +10°C, we recommend adding antifreeze. FYREWASH® F1 is compatible with Methanol, Propylene Glycol and Ethylene Glycol. Enquire about our superior freeze point depressant.

FYREWASH® F1

Maximum efficiency for heavy duty cleaning

Health & Safety

FYREWASH® F1 a highly active petroleum based solvent and surfactant.

EC Hazard rating: Health hazard; Corrosive. US NFPA rating 3,1,0

Protective measures: Wear suitable protective clothing, gloves and eye/face protection and use in a well ventilated area.

If spilled: Clean up personnel should wear suitable protective clothing and eye/face protection. Do not run off to sewer. Collect with non-combustible absorbent material (i.e. vermiculite, sand or earth).

Fire: Use foam, carbon dioxide, dry chemicals, sand or earth. Do NOT use water jets as this may spread the fire. May produce carbon monoxide.

Management System

TARIFF CODE: 34029090

EUROPE ISO14001: 2015,

ISO9001: 2015 & ISO45001: 2018

Environmental Considerations

When using and disposing of any chemical, you should refer to your local environmental procedures. Collect the chemical solution and rinse water for correct disposal.

Ordering, Shipping & Storage

Ordering

FYREWASH® F1 is available in:

25 lt (6.5 USG) pails (code: 73912)

210 lt (55 USG) drums (code: 73914)

1000 lt IBC (code: 73916)

Shipping

It is classified as non-hazardous for international transport by road, sea and air.

Storage

Store in a cool, well-ventilated dry place in tightly closed drums and avoid temperature fluctuations.

Find out more about our FYREWASH® range:

High purity hydrocarbon solvent and surfactant formulation for heavy duty on-line and off-line compressor cleaning.

Best product for oil leaks and heavy fouling

A low foam water based cleaner containing a sustainable plant based grease cutter for on-line and off-line compressor cleaning.

Best low foam water based product on the market

Environmentally friendly water based detergent for on-line and off-line compressor washing.

Superior cleaning qualities that are non-hazardous and environmentally friendly

Environmentally friendly water based detergent for online and offline compressor washing on offshore oil & gas platforms.

Environmentally friendly developed specially for Rolls Royce gas turbine compressors.

We recommend using it with one of our injection system to ensure the highest results

Highly bio-degradable water based detergent with zero cloud point for on-line and off-line compressor cleaning.

Capable of removing the widest spectrum of fouling
