Education

Academy of Art University

Design Guideline

Design, Innovation and creation are a process that starts with finding a problem, generating ideas around solving such problems and creating a model, whether 3D or physical, that demonstrates the appearance and function of the proposed solution.

Design Experience

- Four years of Industrial Design education working as apprentice design student
- Six years of Graphic Design and Digital Art – as a practicing student and artist
- Video / Photography / Editing / Digital Manipulation

Illustrated Skills

Design Software

- Adobe Creative Cloud– Photoshop, Illustrator, Sketchbook Pro, Premier, Lightroom
- Autodesk – AutoCAD, Alias, Fusion 360
- Solidworks / Rhinoceros

Model Making

- Plastic / Rubber Cast / 3D Printing / CNC / Laser Cutting / Metal and Wood Lathe / Mill

Design Drawing

- Concept Sketching / Digital Illustration / Basic Engineering

General Proficiencies

- Design Research / Rapid Idea generation / Rapid Prototyping / Invention

Artistic Accomplishments

- Starred in Television Program **California by Design** supported by IDSA and Core 77
- Exhibited at 2016 San Jose Downtown Doors Student Art Competition
- Nominated for San Jose Film Festival of 2016
