SKILLS

Photo and Graphic Design

2D CAD, 3D Modeling, BIM Modeling, Rendering

PROFILE

I am a passionate and avant-garde designer who lives and breathes to further develop the art of architecture in our urban landscape. My unique life experience allows creative approaches to design solutions and instills a fierce drive and work ethic. Top of my class for the extent of my academic career, I've enjoyed an evolution in my ability to provide empathetic design, an exploration in styles of architectural representation, and innovative design solutions.

Proficient in 2d CAD, 3D modeling, 3D rendering, Building Information Modeling, Hand-made models and hand-drafting.

Experience with 3D printing, Laser-cutting, and CNC milling.

Excel at Conceptual Design and Design Development.

ACCOMPLISHMENTS

Designed a Contemporary home for construction in Carmel, Ca.

Speaker at ACSA Conference (Less Talk, More Action) at Stanford University. Presenting empathetic design approach to the Homeless Crisis

ACSA Published co-author of "We Belong Here", essay on empathetic design and the homeless epidemic
