EDUCATION

UNIVERSITY OF CALIFORNIA, DAVIS, Davis, CA June 2022

- Bachelor of Science in Landscape Architecture
- GPA: 3.5
- GRE: 322
- Language: English (Proficient) and Mandarin Chinese (Native)

RHODE ISLAND SCHOOL OF DESIGN, Providence, RI February 2024

RESEARCH EXPERIENCE

Environment Analysis of Fort Ord Natural Reserve Winter 2021

Advisor: Professor Emily Schlickman

- Wished to research the relevance of some site to the city
- Learned to analyze the boundary between nature and city
- Succeeded to analyze the nature reserve and its relation with city through Adobe Illustrator and Adobe Photoshop

Analysis of Flood Watershed in Austin Waller Creek Spring 2021

Advisor: Professor Emily Schlickman

- Researched the impact of wilderness, such as wood and stream, on surrounding inhabitants
- Studied the periodicity and coverage area of flood
- Explored the role of landscape design in flood control and prevention
- Raised the idea to deal with flooding problems by reservoirs in rainy season

Analysis of Worldwide Green Buildings & LEED Rate Fall 2020

Advisor: Professor David

- Studied the advantages and disadvantages of existing green buildings, Bosco Verticale as representative
- Accumulated some knowledge in Architecture discipline

Golden Gate Park Bison Paddock Redesign Fall 2020

Advisor: Professor Jessica Colvin

- Replanned the bison paddock and observatory to increase the interactivity between people and bison
- Became more proficient in software, such as CAD, Photoshop and InDesign

Hunt Hall Courtyard Design: Pandemic-adapted Functional Design Fall 2020

Advisor: Professor Kiers

- Designed the Hunt Hall courtyard, including seating plan and garden plants' distribution
- Enabled the design to meet the requirement for safe distance between people towards epidemic response

WORK EXPERIENCE

INTERN, Landscape Architecture Design Department

June 2021-August 2021

The Design Institute of Landscape Architecture China Academy of Art Co., Ltd

Project 1

- Joined in the reconstruction of Qiaowan Village at Jiaozuo city which aimed at promoting the tourism industry at Qiaowan Village through breaking the traditional pattern and referring to well-known scenic spots
- Helped with data measurement and data collation in the process
- Accumulated more experience in terrain governing and turned more proficient in information search and management
- Offered to organize photography activities and set up an art zone which could provide a wide choice of entertainment without damage to the natural environment
- Enhanced transportation convenience to attract tourists through separate lanes for riding or walking

Project 2

- Participated in the landscape design at some high-rise residences and commercial streets located in Jinan City, Shandong Province in the hope to expand and improve the neighbourhood
- Took part in the peripheral greening design and road design
- Studied the vegetation and helped confirm if they were removable or had to stay where they were
- Had first contact with the lighting design

COMPETITION EXPERIENCE

- Non-architecture Competition 2020 (Future Public Space)
- Bee Breeders Architecture Competition 2021 (Sleeping pod)
