Experience

Frontend developer — Fincap (Contract)

21 March 2024 — Jul 2024, Remote

- Collaborated with a cross-functional team to refactor and maintain a responsive and secure Fin-tech application built in React/Nextjs.
- Conducted thorough testing and debugging to ensure high-quality deliverables.
- Implemented intuitive financial data visualizations using Tremor.js, enhancing user insights and decision-making capabilities.
- Optimized application performance through code refactoring and efficient asset management.

Frontend developer — Winrealty

Aug 2022 — Jul 2023, Rivers, Nigeria

At Winrealty, I was tasked to manage and develop a responsive and performant frontend application that reshaped the way countless users purchase properties in Rivers, Nigeria.

Contract Frontend developer — Agpro Inc

Oct 2022 — Jan 2023, Texas, USA

At Agpro Inc, I worked closely with the product manager and backend developer to rebrand and build the frontend infrastructure of Agpro's Angular-based service web app that allows thousands of clients across the USA monitor their barn activity.

Technical writer and contributor — Aviyel

Sep 2021 — Aug 2022, Remote, India

In this role, I worked with the Aviyel growth, design, and product teams to help bridge the gap with Open Source content around some of the fastest growing projects. My primary tasks included crafting technical guides and hosting coding sessions to help users understand each onboarded product.

Education

BSc Computer Science — UoPeople

Sep 2023 — May 2027

Modern HTML, CSS & SASS Complete Course — Udemy

Certificate issued date — Nov 2021

The Complete JavaScript Certification — Udemy
