

# A Powerful Combination

You create and freeze the specimens. We manage it from there. You can expect seamless patient management from post-freeze to disposition.

Billing and collections management – onsite or offsite accounts

Upgraded patient and clinic portals

Technology-driven communications

EMR data exchange

Streamlined automatic transfer management

**CRYOLOGIX**<sup>®</sup>  
BY REPROTECH

Cryologix offers a comprehensive solution for the entire cryostorage lifecycle, from post-freeze to disposition. With seamless exchange of billing, collections, and patient communications, our robust platform serves as an all-in-one patient cryo-management tool for your IVF clinic.
