

Daria Artemova

Passionate **front-end dev** and accessibility nerd.
I ship features from rough ideas to production.
Indie gamedev hobbyist.

Experience 8+ years

Software developer

Reaktor, Amsterdam

since November 2022

- Built micro-frontends for one of the largest international e-commerce sites: live streams with chat and reactions, stream replays, and a TikTok-style feed.
- Rebuilt a recycling company website from scratch; built custom components like an interactive map, and editor-friendly templates for non-technical editors.
- Ran an accessibility audit for an AI-powered healthcare web app; reported issues and recommendations.
- Co-developed remote work best practices, and helped teams deliver high-quality work in challenging setups.
- Created a Chrome extension simulating visual impairments to find accessibility issues easier.

Front-end developer

Raiffeisen, Moscow

May 2021 - October 2022

- Maintained several data-heavy web apps with dashboards, tables and complex inputs.
- Introduced Redux and helped deliver a major redesign.

Full stack developer

MTS IT, Moscow

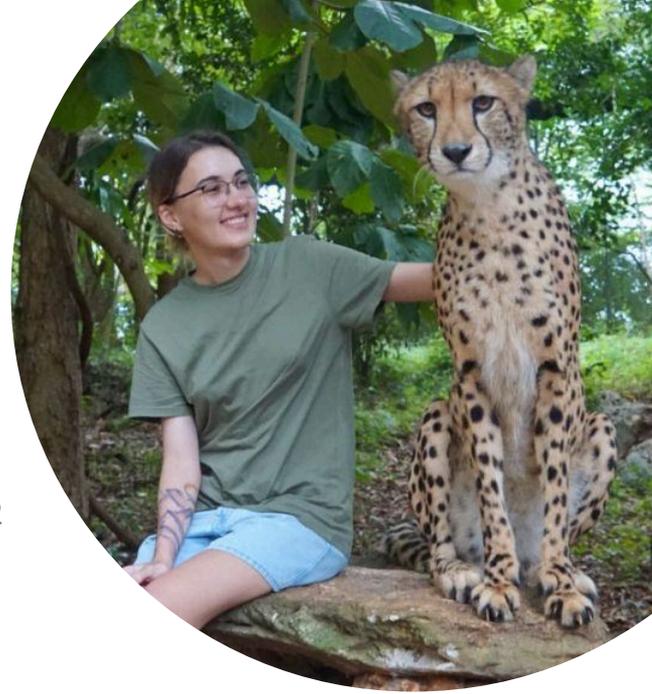

June 2018 - May 2021

- Built a core CRM system and refactored a large legacy codebase.
- Introduced React, TypeScript and Redux, and created a React component library.

QA automation engineer

MTS IT, Moscow

June 2017 - June 2018
