

Vega is seeking to hire a skilled **UX Engineer**. In a rapidly growing cloud startup, you have the opportunity to join an amazing team led by awesome founders, who have over a decade of experience. The ideal prospect is highly productive, fun, and thrives in a fast-paced startup environment.

## **Our Culture**

Our number one goal at Vega is happy culture, happy people, happy clients. In addition, we are obsessed with helping businesses achieve greater security and optimization. We encourage creative problem solving, rapid innovation and bold goal-setting. Our relatively flat organization structure keeps everyone informed and enables people to get involved in solving the problems they care about most. We are a close-knit team moving fast to deliver value to our customers and continue pushing the envelope as we innovate for ease of cost savings & security in the public cloud.

## **Your Mission**

- Translate high-level objectives and design principles into polished visual design
- Develop behavioral prototypes, user flows, final design assets, mockups and lightweight design specifications
- Design user experiences that are intuitive and in-line with current design trends
- Collaborate with design and engineering to ensure that interaction, visual and accessibility designs are implemented according to design intent

## **Requirments**

- Team player with a positive attitude
- Bachelor's degree in computer science or related field
- 2 years in technical experience
- Background designing graphic user interfaces elements and UI mockups/prototypes
- Strong understanding of the end-end UX/UI lifecycles, design principals and process
- Self-starter and independent thinker capable of moving fast.

Please submit your resume to [careers@vegacloud.io](mailto:careers@vegacloud.io) with the title of the role you're seeking as the subject line.
