

Vega is seeking to hire a skilled **Developer**. In a rapidly growing cloud startup, you have the opportunity to join an amazing team led by awesome founders, who have over a decade of experience. The ideal prospect is highly productive, fun, and thrives in a fast-paced startup environment.

## **Our Culture**

Our number one goal at Vega is happy culture, happy people, happy clients. In addition, we are obsessed with helping businesses achieve greater security and optimization. We encourage creative problem solving, rapid innovation and bold goal-setting. Our relatively flat organization structure keeps everyone informed and enables people to get involved in solving the problems they care about most. We are a close-knit team moving fast to deliver value to our customers and continue pushing the envelope as we innovate for ease of cost savings & security in the public cloud.

## **Your Mission**

- Develop, build and release features for end customers that meet identified requirements/user stories.
- Compiling and assessing user feedback to improve Vega product performance
- Maintain existing products and developing new ones

## **Requirments**

- Team player with a positive attitude
- Bachelor's degree in a technical area and/or equivalent work experience
- 2-5 years experience with B2B Software as a Service (SaaS) development.
- Experience with
  - C#
  - .Net Core
  - React
  - Typescript
  - MySQL
  - Material experience a plus
  - AWS Skills a plus (Lambda, etc)
  - AWS CodeBuild
- Servicestack a plus
- Datawarehouse or reporting a huge plus but not required.
- Basic knowledge of software development methodologies

Please submit your resume to [\*\*careers@vegacloud.io\*\*](mailto:careers@vegacloud.io) with the title of the role you're seeking as the subject line.
