

INOV8

Orthopedics

Effective Monday, September 12, 2022, the patient/visitation policy for INOV8 Orthopedics returned to pre-pandemic guidelines, and masks are now optional. Our office will still supply masks upon request for your comfort and safety.

Our office recommends everyday actions suggests by the CDC and Texas Department of State Health Services to help prevent the spread of any respiratory virus, including COVID-19:

- Consider wearing a well-fitting mask, especially in indoor public places if you are not up to date on your vaccines, you are at higher risk of getting very sick with COVID-19, or you live in an area where many COVID-19 cases are being reported.
- Wash hands often for 20 seconds and encourage others to do the same. Use hand sanitizer with at least 60% alcohol if soap and water are unavailable.
- Cover coughs and sneezes with a tissue, then throw the tissue away.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Disinfect surfaces, buttons, handles, knobs, and other places touched often.
- Avoid close contact with people who are sick. This can include when your household members are sick, if possible.

Thank you –
