

An aerial photograph of a construction site. In the center, a yellow excavator is positioned on a dark, muddy path. To the left, there is a large, rectangular concrete structure, possibly a foundation or part of a dam, with some rebar visible. The surrounding terrain is uneven and appears to be under excavation or grading. The overall scene is in shades of grey and brown, with the yellow of the excavator providing a strong contrast.

Hvordan kunstig intelligens
transformerer anleggsbransjen

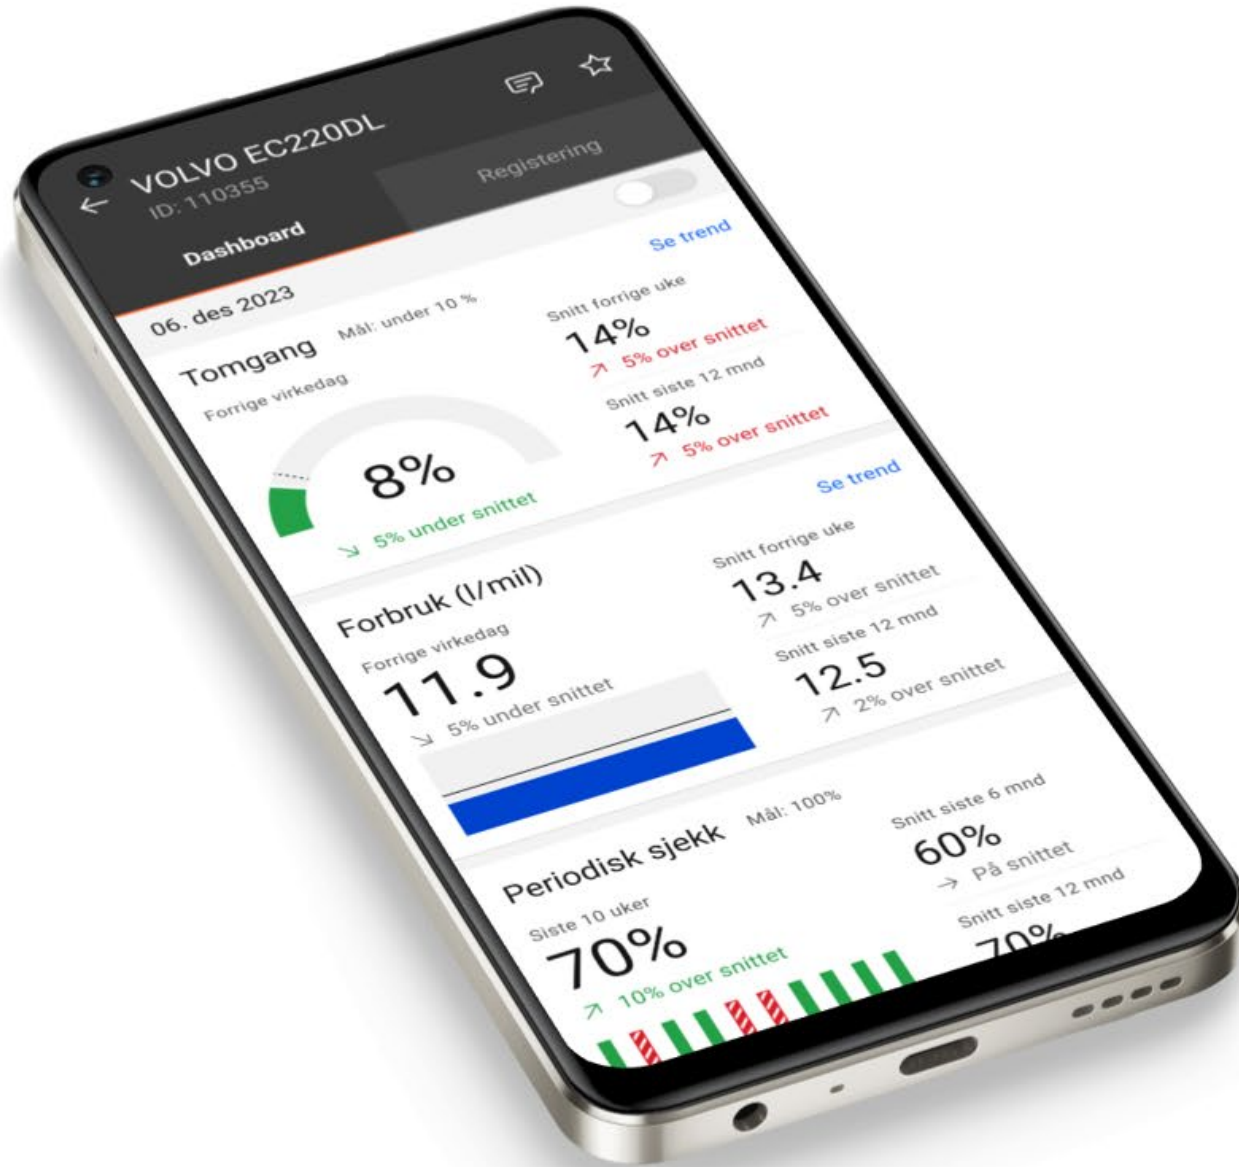

An aerial photograph of a large-scale construction or mining site. The ground is dark and uneven, with several large piles of material. Several pieces of heavy machinery, including yellow excavators, bulldozers, and trucks, are scattered across the site. A large, dark, textured pile of material is prominent at the top of the frame. The overall scene is industrial and active.
