

SCREEN SHARING WITH SCREENMEET

COURSE DESCRIPTION

In the Screen Sharing With ScreenMeet course, you will learn how ScreenMeet is integrated into Tanium, identify use cases to solve issues, and prepare your organization to use Tanium for ScreenMeet. By the end of this course, you can expect to configure the ScreenMeet console, tune role and user permissions using Tanium RBAC, and launch screen share sessions from desktop and mobile devices. Course participants will be assessed through a written assessment.

DELIVERY OPTIONS

Web-Based
Training (WBT)
