- [Tanium Solutions & Bundles](#)
- [Tanium Resource Center](#)

Delivery options and duration

ILT/vILT: 8 hours | WBT: 2-3 hours

Prerequisites

None

Target audience

This course is intended for anyone looking to build on their Tanium knowledge of fundamental Tanium features and functions.

Registration information

This training course is free of charge for current Tanium customers. However, the Tanium Learning Center access is protected, and use of an enrollment key is required for all first time users.

Please click [here](#) to learn more about how to access this training on our Tanium Learning Center.

COURSE OBJECTIVES

- Explain Tanium's unique linear chain architecture
- Create basic queries to gather information about your environment
- Deploy actions to enact changes on endpoints
- Generate reports and visualize information
- Connect with external destinations

COURSE OUTLINE

THE TANIUM PLATFORM

- What is Tanium?
- Deployment types
- Tanium Classic Console
- Customizing the Console
- Module Overview pages
- Tanium Atlas
- Role-based access control

GATHERING INFORMATION & ENACTING CHANGE

- What is Interact?
- Asking questions
- Question results
- Endpoint details
- Tanium Data Service (TDS)
- Drill down and merge
- Interact content
- Actions
- Packages
- Computer and action groups
- Action Oversight
- Managing actions
- Deploying actions
- Scheduled actions and action history
- Adaptive actions
- Troubleshooting

ORGANIZING & VISUALIZING INFORMATION

- What is Reporting?
- Data sources
- Reports
- Dashboards
- Labels
- Troubleshooting

EXTENDING ACROSS WORKFLOWS

- What is Connect?
- Sources and destinations
- Creating a connection
- Reference variables
- Filtering data
- Connection summary
- Troubleshooting

ESSENTIAL TANIUM SHARED SERVICES & PLATFORM COMPONENTS

- Overview
- Tanium Client Management
- Tanium Endpoint Configuration
- Tanium Direct Connect
- Tanium Gateway
- Tanium Guide
- Tanium Guardian
- Tanium Automate
- General troubleshooting & support
