

Control your PowerView® shades from your Amazon Alexa-enabled devices using voice commands.

Using Amazon Alexa voice commands provides an easy, secure way to control your Alexa-enabled home devices. To control your shades using Alexa voice commands, you'll need the following:

- A PowerView account with a PowerView Gen 2 Hub registered to the account.
- An Alexa-enabled device connected to your Amazon account.
- The Alexa App downloaded and installed on your mobile device.

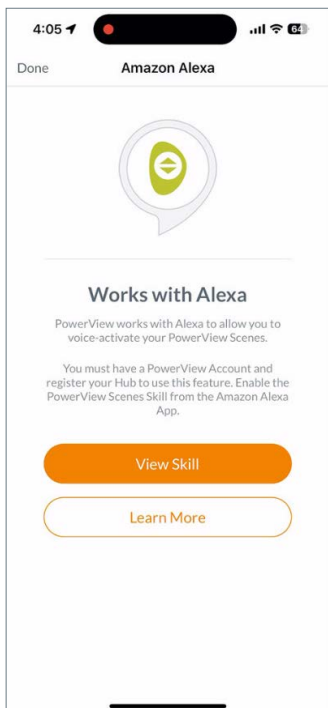

For best results, log into your online Amazon account before beginning.

Step 1

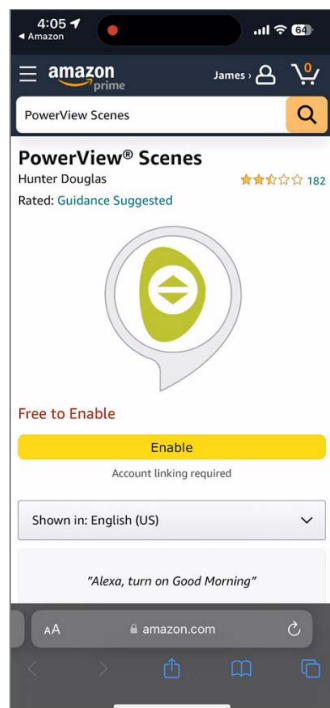

- Open the PowerView App.
- Select the "More" tab followed by "Integrations."
- Select Amazon Alexa.

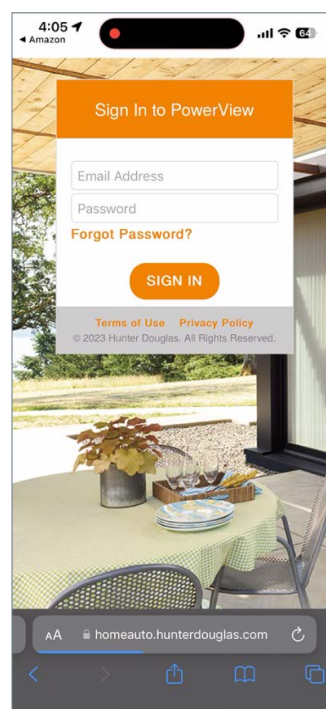

Step 2

- Select “View Skill” when prompted.
- You will be redirected to the Amazon website.
- You will be asked to log into your Amazon account if you have not already done so.

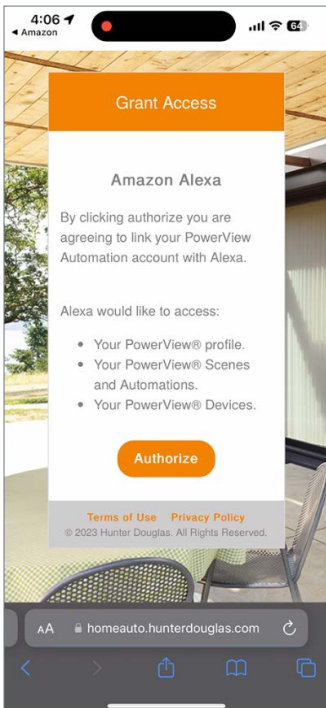

Step 3

- Select “Enable” when prompted.

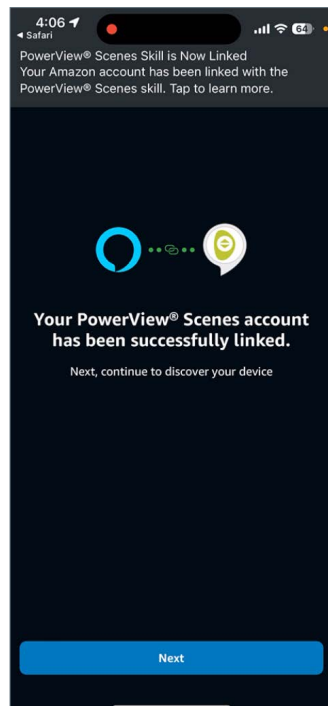

Step 4

- Log in to your PowerView® account.

Step 5

- Select “Authorize” when prompted.

Step 6

- Android users will see a “successfully linked” notification when completed.
- iOS users may receive an additional prompt to select “Next” to complete authorization. A second prompt will appear, confirming a successful link.

Step 7

- To use voice activation, simply say “Alexa” followed by “Activate,” or “Turn On” and then the PowerView® Scene name.
- Sample commands:
 - “Alexa, activate Bedroom Open.”
 - “Alexa, activate Living Room Close.”
 - “Alexa, activate Good Morning.”
